## CONVENIENT CARE

### UAB Callahan Eye Clinic Opens Pelham Office

UAB has opened a satellite location of Callahan Eye Clinic in Pelham, bringing the world-class knowledge and expertise of the Callahan Eye Hospital close to home. Callahan Eye Clinic is one of 20 UAB clinic locations in Central Alabama and the first in the Pelham area. The new clinic opened on March 14.

UAB Media Specialist Adam Pope said, "We are always looking for ways to better serve our patients, and we have many patients who live in or near Pelham. With it being a central location for several communities, a Pelham clinic will allow patients access to the expert eye care UAB Callahan Eye Hospital is known for at a more convenient location."

Pope added the clinic will provide eye care for people of all ages, starting from birth. Patients can schedule appointments for the entire family at one location at times that are convenient for them. "The Pelham clinic will have optometrists and ophthalmologists providing care, meaning if a patient has a condition that needs further diagnosis or treatment, he or she will be able to continue to be treated at the same clinic rather than having to be referred to another specialist at another location." Three providers will work out of the Pelham location, with specialties ranging from pediatric eye care to ocular disease management, cataract and cornea treatment, glaucoma screenings, and refractive and external disease treatment.

The Callahan Eye Clinic in Pelham is certified by KultureCity, and the clinic is sensory-inclusive to promote an accommodating and positive experience for all guests who have sensory needs.

The clinic is located at 3143 Pelham Parkway, Suite 200.

## What's Happening on Huntley?

Two new developments are planned for Huntley Parkway. The land is already being cleared for the Huntley Park subdivision, which is directly across from the Grand Reserve at Pelham entrance. The proposal includes 37 high-end townhomes.

"The proposed development fills a 'gap' in the residential home shortage in the City of Pelham," according to the developers, and will "further complement and enhance the overall community."

Further down, a mixed-use development featuring luxury apartments, retail, and green space will be built on 28 acres at the corner of Huntley Parkway and County Road 11. This development will be on the same side of the road as the Grand Reserve and will extend from near the apartment complex down to County Road 11.

Although land hasn't been cleared yet, the proposal includes 280 units and approximately 21,000 square feet of neighborhood retail space.

"The development provides for a millennial professional lifestyle," the developers told city leadership. In addition to luxury finishes, the development will feature a number of common features including a resort-style pool, a fitness facility, package delivery concierge, a cyber cafe, dog spa, dog park, cabana, and outdoor grilling spaces.
