COOL SUMMER

Pelham Skate School Summer Camps

It's the coolest camp around, which can hardly be disputed, considering Alabama's intense summer heat. Registration is currently open for Pelham Skate School's Camps on Ice at the Pelham Civic Complex & Ice Arena. Three sessions will be offered for children ages five to 13.

According to Susie Gray, Director of Skating, campers will have the chance to learn the principles of ice skating from some of the best. "All camp counselors are credentialed coaches with Learn to Skate USA and U.S. Figure Skating or USA Hockey. Attendees will receive group skating lessons and will have time for supervised independent skating. They will receive two snacks and a healthy lunch, and daily STEM activities, along with off-ice exercises and games." All instructors involved with the camp are background checked and SafeSport certified.

Gray described the camp as a great introduction to ice sports. "Campers are exposed to both hockey and figure skating on and off the ice, all while learning the Learn to Skate basics. Campers interested in learning more about hockey and/or figure skating will have the opportunity to do so."

Interested campers will receive a discount on the next session of Learn to Skate classes. [Click here](#) for more information, or to enroll.
