DEVELOPMENT UPDATE

What's Going on Where Dirt is Moving

Several private, and commercial developments are in various stages of completion around Pelham. We asked some questions to find out the latest details on some of the projects to pass the information on to you.

Circle K Gas Station

Work is moving quickly on the new Circle K gas station at the corner of Valleydale Road and Highway 31. The abandoned Rite Aid store was torn down earlier this year, and now workers are preparing the site for underground gas tanks. We're told construction will take approximately 120-150 days, weather permitting.

Campus No. 124

The interior and exterior buildout for Pappa G's Billiards is wrapping up. The new location for Pappa G's will occupy most of the tenant space, approximately 13,000 square feet, on the south side of Campus No. 124. The new location will feature an exterior patio.

The Canopy at Oak Mountain

"The Canopy is starting to look great!", said John Benner with Genrev Properties, the developer of the site. "We're very excited," he continued. Benner tells us certain businesses and apartment units will be available this summer. Ultimately, there will be 234 apartments for lease. Benner said he can't speak on other retail options just yet, but he promised to let us know very soon.
