Learn the Basics of Cricut Crafting at the Library

The Pelham Public Library is offering a new hands-on program for anyone curious about Cricut crafting. Intro to Cricut will be held on Monday, December 15, from 6:00 to 7:00 p.m. in the library's MakerSpace.

Participants will receive an introduction to the Cricut Maker 3, the intelligent cutting machine used to create vinyl decals, paper crafts, and a wide variety of custom projects. This beginner-friendly workshop will walk attendees through the process of designing, cutting, and assembling a simple craft.

The program is designed for adults, but teens ages 13 and up are welcome to participate. Each attendee will complete one craft, and while devices will be available, the library encourages participants to bring their own Cricut if possible due to limited machine availability.

Registration is required, and space is limited. Registration opens December 1 at 9:00 a.m. If you register but later find you cannot attend, please cancel so another patron can join the class.

For questions, email Tech Librarian [Emily McGlawn](mailto:Emily.McGlawn@pelhamlibrary.org).

An additional Intro to Cricut class will be held in early January; perfect for anyone who receives a new Cricut machine for the holidays!
